We need to plan a schedule and committee for this. Anyone in the Board can come and participate. Start after ski season, done by mid summer. Membership feedback from survey can be used to help guide this process.

3.4. Grants

Gaming Grant is under review, waiting to hear back soon. If we don't get it this year, Kelly Cytke recommends we get a professional to write it.

Wildfire mitigation grant coordination with town, to get burn variances. There are roughly 80 small piles left to burn.

ORCBC grant needs to be done by Jan 20.

Redi Grant to be submitted Feb 2, presentation March 4 or 5, questions from public, regarding gazebos. Glenna can do the presentation if required.

Extra Timing chips can be borrowed from Megan Rose (TransBC), no grant needed anymore.

3.5. RSTBC approvals/ Trails on Trailforks

Waiting on Trevor for Black jump trail approval, amongst many others. Six trails on that.

Trail rebuilds and reroutes to go into next operating plan. Can the Summit Connector changes go there?

Kelly: Trail Committee need to create an order of operations/priority for next summer.

Dougie: working on Goldrush, LSD more extensive work needed. 3K extension from Schacher to corner of Olivia and Chucks property. To be finalized, project for this year.

Glenna: donation of \$5k to trail crew budget made with priority to use the money to rebuild the BST section of Reflection Lake trail to make the climb have a bit more relief as it is the main up trail and the kids camp uses this access route. This can be trail crew or voly night work.

Dave Waugh: College of the Rockies have a trail building course plan for 2027. Can we direct them to rebuild or build newly approved trails?

Some rogue trails to be put on Trailforks for safety reasons. Brad L in conversations with the rogue builders to get their approval for us to post their route to keep good relationships.
